

**CEPC MEETING AGENDA**  
**5:00 PM - 6:30 PM**  
**08/12/2024**

**CHAIR:**

Dr. Maureen Francis, MD, MACP, MS-HPED

**VOTING MEMBERS:**

Dale Quest, PhD; Colby Genrich, MD; Fatima Gutierrez, MD; Patricia Ortiz, MD; Jessica Chacon, PhD; Khanjani Narges, MD, PhD; Munmun Chattopadhyay, PhD; Marwaha Komal, MD, PhD

**EX-OFFICIO:**

Lisa Beinhoff, PhD; Martin Charmaine, MD; Tanis Hogg, PhD; Jose Lopez; Neha Sehgal, DO

**STUDENT REPRESENTATIVES:**

MS1 (Voting-Pending); MS1 (Ex Officio-Pending); Lee Spencer MS2 (Voting); Samuel Aldous MS2 (Ex Officio); Katherine Asmis MS3 (Voting); Joshua Salisbury MS3 (Ex Officio); Rowan Sankar MS4 (Voting); Nikolas Malize MS4 (Ex Officio)

**INVITED/GUESTS:**

Thwe Htay, MD, Priya Harindranathan, PhD

**REVIEW AND APPROVAL OF MINUTES**

Minutes Attached

**ANNOUNCEMENTS**

**Presenter(s): Dr. Francis**

**ITEMS FROM STUDENT REPRESENTATIVES**

**Presenter(s): Students**

**ITEM I LCME Element 1.1 – Table Updates**

**Presenter(s): Dr. Francis**

**ITEM II CBSE Timeline**

**Presenter(s): Dr. Hogg**

**ITEM III SARP Syllabus Updates**

**CEPC 08/12/2024**

**Presenter(s): Dr. Hogg**

**ITEM IV Alternate Experiences for Required Patient Encounters/Procedures**

**Presenter(s): Dr. Sehgal**

**ITEM V: Policy Updates**

**Presenter(s): Dr. Francis**

- Non-Involvement of Providers of Student Health Services in Student Assessment (12.5)
- Oversight of Extramural Electives (11.3)
- Technical Standards for Admission, Retention, and Graduation
- Course Evaluation & Reporting
- Sub-Committee on Evaluation of Education Programs

**ADJOURN**

**Meeting adjourned:**

**CEPC Monthly Meeting Minutes**

**5:00 PM - 6:30 PM**

**8/12/2024**

**MEMBERS IN ATTENDANCE:**

Charmaine Martin; Colby Genrich; Dale Quest; Fatima Gutierrez; Jessica Chacon; Jose Lopez; Samuel Aldous; Katherine Asmis; Lisa Beinhoff; Maureen Francis; Munmun Chattopadhyay; Narges Khanjani; Neha Sehgal; Patricia Ortiz; Tanis Hogg

**MEMBERS NOT IN ATTENDANCE:**

Komal Marwaha; Lee Spencer; Joshua Salisbury; Nikolas Malize; Rowan Sankar

**PRESENTERS/GUESTS IN ATTENDANCE:**

Thwe Htay; Nathan Holland

**INVITED/GUESTS NOT IN ATTENDANCE:**

Priya Harindranathan

**CEPC 08/12/2024**

#### REVIEW AND APPROVAL OF MINUTES

**Dr. Francis**

Having met quorum, the meeting minutes from the July 08, 2024 meeting were voted on and approved as presented.

Dr. Quest moves the motion for approval.

Dr. Genrich seconds the motion.

No objections: Motion was approved.

#### ITEMS FROM STUDENT REPRESENTATIVES

**MS1/MS2/MS3/MS4**

- MS1: Roles to be filled soon
- MS2: Samuel Aldous noted that students are very receptive to the new anatomy format. The only area that might need improvement is the organization of the TA stations and assignments. Additionally, TAs should make sure they cover all the important content so students do not miss anything. Dr. Francis thanked the student for raising concern at the start of the unit, and Dr. Hogg took note to address the issue promptly for immediate improvement.
- MS3: Katherine Asmis raised a concern about the Elantra system, stating that op logs, assignments, the number of required evaluations, etc., are not updated for several clerkships. Dr. Seghal promptly invited a student to meet and thoroughly review these discrepancies together. Additionally, Katherine raised concern that the students have been receiving their ED schedules at the last minute. Dr. Seghal stated that she would speak with the scheduling coordinator to address this issue and explore ways to improve the process.
- MS4: not present

#### ITEM I: ITEM I LCME Element 1.1 – Table Updates

**Presenter(s): Dr. Francis**

LCME Element 1.1 – Table Overview

\*Please see attached report

Dr. Francis stated that the table is required by the LCME and emphasized that the committee's next step is to ensure that the monitoring of the listed items is taking place. She explained that many of these elements are already tracked by other groups, such as the LCME Leadership Advisory Group and through other channels. The goal is to ensure that curriculum-related standards, which are explicitly addressed in phase reviews and annual reports, are closely monitored by the committee as part of the established practice. She emphasized that this agenda item was shared as a reminder of the standardized practices required by accreditation, as reflected in the table.

## **ITEM II: CBSE Timeline**

**Presenter(s): Dr. Hogg**

**NBME CBSSA & CBSE**

\*Please see attached report

Dr. Hogg said that the goal of his presentation is to show the improved process for Step 1 preparation. He explained that the NBME offers two assessments, the CBSSA and the CBSE, which simulate USMLE Step 1, and highlighted their similarities and differences. He showed how these exams were administered last year in AY 2023-24 (slide 3). He pointed out that the concerns raised by students at this committee about taking these two CBSE exams early in the curriculum would exhaust their opportunities to achieve passing scores after completing their full course of study. In response, Dr. Francis and Dr. Hogg met with the NBME representatives and developed a new, robust system. Hence, instead of taking two CBSE exams early in the curriculum, students will now have the option to use the CBSSA (proposed schedule for AY 2024-25 – slide 4).

In summary, students will have 4 CBSSA exams and can choose up to 5 CBSE dates out of 6 offered, with a two-week interval between each. He emphasized that students are encouraged to take as many CBSSA exams as possible, even if they achieve the passing score of 63 and become eligible for Step 1. Dr. Hogg stressed out that our school has established a passing score of 63 for Step 1 eligibility. However, due to the risk of failing Step 1, he concluded, the NBME recommends students aim for a score of 69 or higher, ideally in the seventies, to ensure a stronger performance.

**Decision:**

Dr. Quest moves the motion for approval.  
Dr. Khanjani seconds the motion.  
No objections: Motion was approved.

**ITEM III: SARP Syllabus Updates**

**Presenter(s): Dr. Holland**

\*Please see attached report

Dr. Holland presented minor changes to the SARP syllabus. He conveyed that last year, students who were applying for residency, requested additional time for the submission of progress and final reports. Therefore, the faculty proposed to give them an additional month.

**Decision:**

Dr. Chattopadhyay moves the motion for approval.  
Dr. Khanjani seconds the motion.  
No objections: Motion was approved.

**ITEM IV: Alternate Experiences for Required Patient Encounters/Procedures**

**Presenter(s): Dr. Sehgal**

\*Please see attached report

Dr. Sehgal explained that her presentation is related to the LCME 6.2 Required Clinical Experiences element. She noted that, traditionally, if students did not complete the OpLog, they would need to complete

TEXAS TECH UNIVERSITY  
HEALTH SCIENCES CENTER  
EL PASO

Paul L. Foster School of Medicine

alternative assignments. Consequently, a comprehensive list of prospective alternative assignments for all OpLog requirements was gathered by the clerkship directors and coordinators. The proposal is to incorporate this into the curriculum for the next academic year.

**Decision:**

Members agreed that this agenda item should be sent out for an asynchronous and electronic vote, so they could review the comprehensive list of alternative assignments. This agenda item was approved by the electronic vote.

**ITEM V: Policy Updates**

**Presenter(s): Dr. Francis**

Dr. Francis presented the new policy, titled *Non-Involvement of Providers of Student Health Services in Student Assessment*, which is related to the LCME 12.5. \*Please see attached report

- She highlighted that the core principle of this policy is that healthcare providers who treat students as patients should not have any influence on the students' academic assessment or progress. Dr. Francis concluded that this practice was already outlined in the handbook, but the goal is to formalize it as an official policy.
- After a short discussion, members agreed to add a rule stating that if a student is involved in the care of a faculty member, resident, or other healthcare provider, that person must recuse themselves from any decisions about the student's academic progress.

Dr. Ortiz moves the motion for approval.

Dr. Quest seconds the motion.

No objections: Motion was approved.

**CEPC 08/12/2024**

Dr. Francis presented the new policy titled *Oversight of Extramural Electives*, which was also included in the handbook but had not been formalized as an official policy before the CEPC. \*Please see attached report

- She highlighted three pathways that students in their fourth year can take in order to apply for away rotations. In addition, she explained that students must follow certain guidelines to receive their credit for away rotations and that this requirement is based on the length of the elective. She noted that the start dates of away rotations vary across different institutions, which is why students have 16 weeks of flexible time in their fourth year to plan. Dr. Martin mentioned that affiliation agreements sometimes require several months to be fully executed between institutions. Members agreed to add this language to the policy.

Dr. Genrich moves the motion for approval.

Dr. Quest seconds the motion.

No objections: Motion was approved.

Dr. Francis presented the *Technical Standards for Admission, Retention, and Graduation* policy. \*Please see attached report

- She noted that this policy was reviewed last year, but the Office of Accessibility Services had an additional suggestion. She emphasized the section where incoming students are strongly encouraged to submit accommodation requests at least 30 days before the start of their first semester. In addition, she noted that the new monitoring is based on LCME requirements. Students will have to attest to the policy every year.

TEXAS TECH UNIVERSITY  
HEALTH SCIENCES CENTER  
EL PASO

Paul L. Foster School of Medicine

Dr. Khanjani moves the motion for approval.

Dr. Quest seconds the motion.

No objections: Motion was approved.

Sub-Committee on Evaluation of Education Programs had a minor change related to a title change within its composition.

Dr. Quest moves the motion for approval.

Dr. Chattopadhyay seconds the motion.

No objections: Motion was approved.

Due to time constraints, the Course Evaluation & Reporting policy was sent for an asynchronous and electronic vote along with alternative assignments for all OpLog list. Both items were approved. \*Please see attached reports

**ADJOURN**

Meeting adjourned at 6:30 PM

# CEPC Meeting

Dr. Hogg

8/12/24

# NBME CBSSA & CBSE

- The NBME offers two assessment types that are designed to simulate USMLE Step 1:
  - Comprehensive Basic Science Self-Assessment (CBSSA)
  - Comprehensive Basic Science Exam (CBSE)
- Similarities between CBSSA and CBSE:
  - Help students gain familiarity with NBME-style questions
  - Evaluate readiness to take Step 1
  - Provide performance feedback by content area
- Differences:
  - CBSSA is a practice exam and its content is not secure; it can be administered on-site or students can use vouchers to take it at home at standard or variable pacing. Students get detailed formative feedback including answer explanations.
  - CBSE is primarily used as a summative exam. It is securely administered. The NBME limits the number of CBSE attempts to five per student. At PLFSOM, a minimum CBSE score of 63 (within Step 1 low-pass range) is required for Step 1 eligibility.

# GUIDANCE BY SCENARIO (CBSE or CBSSA)

# GUIDANCE BY SCENARIO (CBSE or CBSSA)

 Your total equated percent correct score

 Your CBSSA likely score range

 Step 1 low-pass (LP) range

If your CBSSA likely score range is partly within and partly above the Step 1 low-pass range, your level of performance is still close to the minimum performance level required to pass Step 1.

Additional preparation may be recommended.\*

If your CBSSA likely score range is completely above the Step 1 low-pass range, you are likely ready to take Step 1.

Please remember that CBSSA performance is not a guarantee of future Step 1 performance because many factors (e.g., changing levels of knowledge) may impact your performance on Step 1.

\*Additional preparation is typically recommended for students scoring within the Step 1 low-pass range. In a scenario like the one above, consider your CBSSA trajectory and other indicators available. Performance that is partly within and partly above the Step 1 low-pass range on two or more CBSSAs may provide more reassurance of readiness than a single instance of performance in that portion of the score scale.

**Policy Name**

<b>Policy Name:</b>	<b>Non-Involvement of Providers of Student Health Services in Student Assessment</b>				
<b>Policy Domain:</b>	Curriculum Management	<b>Refers to LCME Element(s):</b>	12.5		
<b>Approval Authority:</b>	CEPC	<b>Adopted:</b>		<b>Date Last Reviewed:</b>	
<b>Responsible Executive:</b>	Associate Dean for Medical Education	<b>Date Last Revised:</b>			
<b>Responsible Office:</b>	Office of Medical Education	<b>Contact:</b>	Mirjana Babic, M.P.A. <a href="mailto:mbabic@ttuhsc.edu">mbabic@ttuhsc.edu</a>		

1. **Policy Statement:** On occasion medical students may receive healthcare treatment from a healthcare provider who also has a teaching and assessment role in the curriculum. It is the SOM's responsibility to ensure that these individuals have no influence on the academic assessment or progress of the student they have treated, excluding exceptional circumstances.
1. **Reason for Policy:** The purpose of this policy is to outline a process for ensuring medical providers of student health services have no role in student assessment or academic progress decisions.
1. **Who Should Read this Policy:** All PLFSOM medical students, education program leaders, all academic officers of the Office of Medical Education and the Office of Student Affairs, members of the Grading and Promotions Committee, all course and clerkship directors, and all members of the faculty.
2. **Resources:** Officers and staff of the Office of Medical Education support this policy.
3. **The Policy:**
  - a) Health professionals who provide any psychiatric/psychological assessment or treatment for other health services to medical students, will have no involvement in the academic assessment or promotion of the medical student receiving those services.
  - b) If a student is assigned to an educational environment where the supervising health professional has previously provided any form of mental health assessment or treatment, or other sensitive health care service to the student, the supervising health professional must advise the course/clerkship director of a need to re-assign the student to a different evaluating supervisor as soon as they become aware of the conflict.

*Policies are subject to revision. Refer to the Office of Medical Education website or contact the Office of Medical Education to ensure that you are working with the current version.*

- c) It is the responsibility of the course/clerkship director to make sure that teaching faculty, residents and other health care professionals (such as nurse practitioners and mid-wives) are aware of this policy.
- d) If a student should be assigned to an educational environment where the supervising health professional does not immediately recall having treated the student and/or has not initiated the steps in item b (above), the student should request and will be granted an alternative assignment as soon as possible. The student may go directly to the relevant curriculum director (i.e. Course Director, Clerkship Director) or to the Office of Student Affairs or Medical Education to have the educational assignment changed.
- e) Similarly, if a student is involved in the care of a faculty, resident or other health care provider, then the provider is expected to recuse themselves from assessment and deliberations related to the progression of the student.
- f) A healthcare professional on the Grading and Promotions Committee or on any committee that evaluates students (voting or nonvoting members) must recuse him/herself from deliberations related to a student that he or she has provided medical, psychiatric, or psychological health care services.

<b>Policy Name:</b>	<b>Oversight of Extramural Electives</b>				
<b>Policy Domain:</b>	Curriculum Management	<b>Refers to LCME Element(s):</b>	11.3		
<b>Approval Authority:</b>	CEPC	<b>Adopted:</b>		<b>Date Last Reviewed:</b>	
<b>Responsible Executive:</b>	Associate Dean for Medical Education	<b>Date Last Revised:</b>			
<b>Responsible Office:</b>	Office of Medical Education	<b>Contact:</b>	Mirjana Babic, M.P.A. <a href="mailto:mbabic@ttuhsc.edu">mbabic@ttuhsc.edu</a>		

1. **Policy Statement:** PLFSOM medical students in their fourth year are permitted to take an elective under the auspices of another medical school, institution, or organization with the approval of the Associate Dean for Student Affairs.
2. **Reason for Policy:** This policy is intended to codify our established practices, consistent with LCME accreditation element 11.3 (march 2024 edition), regarding the process for a student to take an extramural elective.
3. **Who Should Read this Policy:** All PLFSOM medical students, education program leaders including the dean, vice president for academic affairs, all academic officers of the Office of Medical Education and the Office of Student Affairs, all course and clerkship directors, and all members of the following standing committees: the Committee on Curriculum and Educational a Policy (CEPC), the Committee on Student Grading and Promotion (GPC), the Sub-Committee on Evaluation and Education Programs, and the Committee on Student Affairs.
4. **Resources:** Officers and staff of the Office of Student Affairs and officers and staff of the Office of Medical Education support this policy.
5. **Definitions:** The Visiting Student Learning Opportunities (VSLO) program is a service provided by AAMC that allows member institutions to post elective opportunities and allows students to apply for electives posted by other participating institutions.
6. **The Policy:**
  - a. PLFSOM medical students in their fourth year may apply for away rotations through one of the following pathways:
    - a. Apply through the VSLO program after approval by the Associate Dean for Student Affairs or their designee.
    - b. Apply to the Office of Global Health MS4 Global Health Program through the application procedure posted at <https://ttuhscpe.edu/oghs/global-health/ms4-program/applicationprocedure.aspx>
    - c. Apply for an elective under the auspices of another institution or organization with the approval of the Associate Dean for Student Affairs.

*Policies are subject to revision. Refer to the Office of Medical Education website or contact the Office of Medical Education to ensure that you are working with the current version.*

- b. In order to receive credit for an away rotation, students must follow the one of the pathways outlined in section 6.a.
  - a. Note that all 4<sup>th</sup> year electives receive either 2 or 4 credits based on the length of the elective.
    - i. Electives < 2 weeks in length will not receive any credit.
    - ii. Electives 2 weeks in length will receive 2 credits.
    - iii. Electives 4 weeks in length will receive 4 credits
    - iv. If an elective is > 2 ~~weekeees~~ but < 4 weeks in length, then 2 credits will be awarded.
  - ~~b.~~ The start and end dates of away rotations may not line up with the FSOM blocks as outlined on the academic calendar. If this occurs, students are expected to use their flexible time between an away rotation and their next scheduled rotation. It is not permitted for a student to leave a rotation early or start a rotation late due to accommodate an extramural rotation.
  - ~~b-c.~~ Note that some away rotations will require an affiliation agreement that may take 3 months or longer to be approved by both institutions.
- c. The host institution/program must provide the following information, as appropriate, to the student and the medical school prior to the rotation for the review and approval of the Associate Dean for Student Affairs or their designee:
  - a. Potential risks to the health and safety of patients, students, and the community
  - b. The availability of emergency care
  - c. The possibility of natural disasters, political instability, and exposure to disease
  - d. The need for additional preparation prior to, support during, and follow-up after the elective
  - e. The level and quality of supervision
  - f. Any potential challenges to the code of medical ethics adopted by the home school
- d. The host institution/program is responsible for providing a performance assessment and grade for the student engaged in an extramural elective at their site.
  - a. Students are provided with a paper and electronic copy of a final assessment. They deliver this to the coordinator at the extramural site with instructions for the coordinator to complete the electronic form or return the completed paper final assessment by fax or email to the Unit Manager of the Clerkship Phase.
  - b. The final assessment returned by the extramural coordinator is the official grade for the rotation.
  - c. The official grading scale is honors/pass/fail.
  - d. The timeline for receipt of the final assessment/grade is subject to the "Timely Course, Clerkship and Curriculum Requirement Grade Release" policy found at: <https://ttuhscep.edu/som/ome/CEPC/policies.aspx>.
- e. Evaluation of the extramural elective

**Medical Education Program Policy**

<b>Policy Name:</b>	<b>Technical Standards for Admission, Retention, and Graduation</b> (previously referred to as the “Standards for Curricular Completion”)				
<b>Policy Domain:</b>	Undergraduate Medical Education	<b>Refers to LCME Element(s):</b>	10.5 Technical Standards		
<b>Approval Authority:</b>	Committee on Curriculum and Educational Policy	<b>Adopted:</b>	At founding	<b>Date Last Reviewed:</b>	11/4/2019
<b>Responsible Executive:</b>	Associate Dean for Medical Education (in consultation with the Associate Deans for Student Affairs and for Admissions).	<b>Date Last Revised:</b>	March, 2024		
<b>Responsible Office:</b>	Office of Medical Education	<b>Contact:</b>	Mirjana Babic M.P.A. mbabic@ttuhsc.edu		

- Policy Statement:** This policy defines the non-academic requirements essential for participation in the Paul L. Foster School of Medicine (PLFSOM) M.D. degree program.
- Reason for Policy:** As per the Liaison Committee on Medical Education (LCME) publication *Functions and Structure of a Medical School (March 2024)*: “A medical school develops and publishes technical standards for the admission, retention, and graduation of applicants or medical students in accordance with legal requirements”.
- This policy should be read by:**
  - All PLFSOM academic officers with responsibilities relating to undergraduate medical education
  - All candidates offered admission, and all medical students who experience a change in their general abilities or skills
- Resources:**
  - This policy is administratively maintained by the PLFSOM Office of Medical Education, in consultation with the Office of Student Affairs, ~~and~~ the Office of Admissions, and the Office of Accessibility Services.
  - Related institutional policies:
    - HSCEP OP 77.01, Admission
    - HSCEP OP 77.14, Accessibility and Establishing Accommodation for Students with Disabilities
- Definitions:**
  - Technical Standards (previously referred to as the “Standards for Curricular Completion”):** The term ‘technical standards’ refers to all non-academic admissions criteria that are essential to participation in the program in question.
  - Student:** For the purposes of this policy, the term “student” refers to all admitted candidates for admission, promotion, or graduation under the PLFSOM M.D. degree program.
- The Policy:**
  - PLFSOM, as a component of the Texas Tech University Health Sciences Center El Paso, is committed to equal educational opportunity and non-discrimination consistent

- B. Because graduation with an M.D. degree signifies that the recipient is a physician prepared for entry into the practice of medicine within the U.S. graduate medical education and licensure framework, students in the PLFSOM M.D. degree program are expected to acquire a broad foundation of medical knowledge and skills that generally supports and permits this progression. In addition, as students interact with patients throughout their medical education, the school has an ethical responsibility for the safety of the patients with whom students and graduates will come in contact. Patient safety and well-being are therefore major factors in establishing requirements involving the physical, cognitive, and emotional abilities of candidates for admission, promotion, and graduation. As such, all students must meet certain standards with or without reasonable accommodations. More specifically, all students must possess the following intellectual, ethical, behavioral, and physical capabilities required to undertake the curriculum in its entirety (i.e., to fulfill all of the educational program's goals, objectives, and requirements at or exceeding the competencies required by the faculty, and as consistent with LCME accreditation standard 6: "Competencies, Curricular Objectives and Curricular Design"):
- i. **Observation:** A student must be able to demonstrate adequate sensory function (e.g., vision, hearing and touch) to observe a patient accurately at a distance and close at hand.
  - ii. **Communication:** A student must be able to communicate with clarity and efficiency in both spoken and written form. The student must also be able to perceive communication from others whether it be written, verbal, or non-verbal including intonation, changes in mood, activity, and posture.
  - iii. **Psychomotor Skills:** A student must be able to perform the maneuvers necessary to perform a physical exam, render routine and emergent care, and safely execute the motor movements required to provide general care and emergency treatment to patients. Examples of these include, but are not limited to cardiopulmonary resuscitation, inserting an IV, drawing blood, bag-valve-mask ventilation, palpation, auscultation, percussion, application of pressure, movement around the immobile patient as needed to perform procedures such as maintaining a sterile field and surgical and non- surgical procedures.
  - iv. **Intellectual and Cognitive Abilities:** A student must be able to problem- solve effectively and rapidly; learn; reason; calculate; formulate and test hypotheses; memorize; process; analyze; rapidly integrate and synthesize information; and apply information in an environment of high stress and distraction.
  - v. **Behavioral and Social Skills:** A student must exercise professional judgment and promptly complete all responsibilities attendant to his or her academic work, teamwork, and patient care. The student must possess the ability to develop mature, sensitive and effective professional relationships with peers, faculty, staff, and members of the healthcare team. The student must be able to give and receive constructive feedback. The student must demonstrate the ability to process feedback and utilize it to conform his or her behavior to expected professional standards. The student must manage adversity and stress in order to prevent it from impacting his or her abilities in these competencies.

**Within this framework, the need for a trained intermediary to observe or interpret**

**information, or to perform procedures, is deemed to preclude essential elements of participation in, and comprehensive fulfillment of the curriculum.** In addition, a student must have the physical and emotional stamina and capacity to function in a competent manner in the hospital, classroom, and laboratory settings, including settings that may involve heavy workloads, long hours, and stressful situations in order to provide patient care that is timely, safe and effective. Also, Individuals whose performance is impaired by abuse of alcohol or other substances are not suitable candidates for admission, promotion, or graduation.

- C. If a candidate is offered and accepts an offer of admission, the candidate must then sign a form acknowledging that they have read this policy and understand that the program's technical standards must be met without accommodation or with reasonable accommodations.
- ~~C.~~ ~~Requests for accommodation(s) must be submitted to the TTUHSC El Paso Academic Success and Accessibility Office (ASAO) in accordance with HSCEP OP 77.14. The deadline for admitted candidates to submit requests and supporting documentation is 30 days prior to the beginning of the first semester of enrollment. Copies of the request and documentation will then be forwarded to the PLFSOM Office of Student Affairs, and the ASAO will work with the school to assess the request in the context of the educational program's technical standards. The School may seek independent review by a specialist of its choice. The decision on whether or not an accommodation request will be granted is made by a committee composed of the TTUHSC El~~
- ~~D.~~ ~~Paso assistant vice president for student services and student engagement or their designee, the PLFSOM associate dean for medical education, the associate dean for admissions, the associate dean for student affairs, and at least three relevantly knowledgeable faculty members or consultants selected by the dean or their designee. Accommodations granted at the time of admission for permanent disabilities should be consistent with the applicant's ability to complete the entire degree plan, including the clerkship phase of the curriculum. This committee's decisions are subject to review and approval by the dean.~~
- ~~E.~~ ~~Requests for accommodations, including requests by students related to disabilities identified and/ or acquired following matriculation, are otherwise evaluated and managed according to HSCEP OP 77.14.~~
- D. PLSFOM students will be required to review the Technical Standards annually and attest that they have read this policy and understand that the program's technical standards must be met without accommodation or with reasonable accommodation.
- E. Requests for accommodation(s) must be submitted to the TTUHSC El Paso Office of Accessibility Services in accordance with HSCEP OP 77.14.
- Matriculating students are strongly encouraged to submit request for accommodation(s) at least 30 days prior to the beginning of the first semester of enrollment.
  - ~~— Accommodations granted at the time of admission for permanent disabilities should be consistent with the applicant's ability to complete the entire degree plan, including the clerkship phase of the curriculum.~~
  - Students returning from a leave of absence are strongly encouraged to submit request for accommodation(s) at least 30 days prior to their return date.
  - Requests for accommodations, including those related to disabilities identified

and/or acquired following matriculation, are evaluated and managed according to HSCEP Op 77.14.

- Accommodations granted at the time of admission or after matriculation for permanent disabilities should be consistent with the applicant's ability to complete the entire degree plan, including the clerkship phase of the curriculum.
- If necessary, Accessibility Services may consult with a committee to identify appropriate and reasonable accommodations while maintaining the privacy and confidentiality of the student. This committee may be composed of the Associate Dean of Medical Education, Associate Dean of Student Affairs, Associate Dean of Admissions, and up to three knowledgeable faculty members or consultants selected by the Associate Dean of Medical Education. The committee may also seek independent review by a specialist of its choice to determine appropriate and reasonable accommodations.
- Additional information regarding the process for establishing accommodations, including student rights and responsibilities, and the appeals process can be found in HSCEP OP 77.14.

~~F.~~

G.F. Requests for accommodation by external organizations (such as, but not limited to, the National Board of Medical Examiners) for any exams or assessments administered under their auspices are independent and additional processes for which the school is not responsible. Such requests, and any related expenses, are the responsibility of the student.

H.G. **Monitoring:**

- At the time of admission:
  - Student attestations signifying receipt of the policy and understanding that the program's technical standards must be met with or without accommodation will be centrally monitored by the Office of Admissions.
- At the beginning of each academic year:
  - Student attestations signifying receipt of the policy and understanding that the program's technical standards must be met with or without accommodation will be centrally monitored by the Office of Student Affairs.
- ~~• At the beginning of each academic year:~~
  - ~~■ Student attestations signifying receipt of the policy and understanding that the program's technical standards must be met with or without accommodation will be~~

## Medical Education Program Policy

<b>Policy Name:</b>	<b>Course Evaluation &amp; Reporting</b>				
<b>Policy Domain:</b>	Evaluation	<b>Refers to LCME Element(s):</b>	8.3 Curricular Design, Review, Revision/Content Monitoring 8.5 Medical Student Feedback 3.5 Learning Environment/Professionalism		
<b>Approval Authority:</b>	Curriculum and Educational Policy Committee (CEPC)	<b>Adopted:</b>	1/09/2017	<b>Date Last Reviewed:</b>	February 2023
<b>Responsible Executive:</b>	Associate Director of Assessment and Evaluation or their Designee	<b>Date Last Revised:</b>	February 2024		
<b>Responsible Office:</b>	Office of Medical Education	<b>Contact:</b>	Mirjana Babic, M.P.A. <a href="mailto:mbabic@ttuhsc.edu">mbabic@ttuhsc.edu</a>		

- Policy Statement:** All course evaluations shall be collected centrally by the Office of Medical Education (OME). The associate director of assessment and evaluation shall collect course evaluation data and report the results to the faculty, the course/clerkship director, relevant department chairperson, the assistant deans for medical education and the associate dean for medical education. In addition, the associate director of assessment and evaluation shall collect information on the learning environment, reporting the results to the course/clerkship director, the assistant deans for medical education, the associate dean for medical education and the associate and assistant deans of student affairs, who is charged with addressing learning environment issues. The associate dean for graduate medical education shall also receive a copy of the learning environment reports so that they can assist in addressing learning environment issues involving residents.
- Reason for Policy:** In order to fulfill the educational mission, PLFSOM needs to understand student perceptions of courses and the learning environment.
- Who Should Read this Policy:**
  - Faculty with teaching responsibilities
  - Course & clerkship directors
  - Department chairpersons
  - Program directors
  - Office of Medical Education personnel
  - The assistant deans for medical education
  - The associate deans for medical education and student affairs

4. **Definitions:**

- Course – any course or clerkship offered by PLFSOM
- Away rotation – any course or clerkship offered by an institution other than PLFSOM. These are subject to approval by the Office of Student Affairs.

5. **The Policy:**

- 1) The course evaluations data shall be collected using confidential forms. The forms shall, capture course specifics and academic term specific to the evaluation. In the unlikely event that an evaluation submitted by a student poses a credible threat to the safety of the student or others, the associate deans for medical education and student affairs or their designee can initiate the process to identify the responsible student. A staff member from the Office of Medical Education who has the required privilege level to access this information on the evaluation platform shall be designated for this process. This is the only reason that confidentiality would be broken on the evaluation forms.
  - a) Data Collection – In order to ensure adequate student participation to produce meaningful feedback, students will be required to submit a course evaluation for each course or clerkship offered at PLFSOM. Students who do not complete evaluations on time will receive 1 negative professionalism report per block/unit for missed evaluations.
  - b) Data collection timing
    - i) MS 1&2 courses offered on a unit basis shall be evaluated and reported on a unit basis.
    - ii) Scholarly Activity and Research Project (SARP) shall be evaluated when students complete all their course requirements and reported on an annual basis.
    - iii) MS 1&2 courses offered on a semester basis shall be evaluated and reported on a semester basis.
    - iv) MS 3 clerkships shall be evaluated and reported on a block basis
    - v) MS4 clerkships shall be evaluated at the end of the course/rotation and reported on a semester basis.
- 2) For each course offered by PLFSOM, the Office of Medical Education will collect evaluations using forms specific to that course. Each course evaluation shall consist of
  - a) A set of standard elements set by the evaluation committee.
  - b) A set of tailored items specific to the course
  - c) No more than 3 items requested by the course/clerkship director
  - d) A learning environment assessment
    - i) Preclinical- Separate evaluations on learning environment shall be issued to students at the end of each unit and end of the semester.
    - ii) Clinical
      - (1) Items shall mirror the AAMC Graduate Questionnaire items on learning environment
      - (2) Open comment field
- 3) Reporting
  - a) Content
    - i) All regularly produced course evaluation reports for specific courses will include unedited comments. Any aggregate results reported will not include comments unless otherwise specified by the CEPC.
    - ii) All evaluation content, including the learning environment data, shall be included in regular course evaluation reports.
      - (1) For the MS 1 & MS 2 courses

Commented [FM2]: Should this be confidential or anonymous?

Commented [FM3]: Are there are some course that are reviewed on a semester basis? SARP?

*Policies are subject to revision. Refer to the Office of Medical Education website or contact the Office of Medical Education to ensure that you are working with the current version.*

TEXAS TECH UNIVERSITY  
HEALTH SCIENCES CENTER  
EL PASO

Paul L. Foster School of Medicine

- (1) Quantitative and qualitative data will be included in the individual course reports
- (2) For MS 3 & MS 4 courses
  - (1) For all required courses and elective courses, each report shall contain both quantitative and qualitative data relative only to that course.
  - (2) Aggregate learning environment reports produced for the Office of Student Affairs shall contain both qualitative and quantitative data with unedited comments.
  - (3) Aggregate learning environment reports and aggregate resident reports produced for the associate dean for graduate medical education and aggregate faculty reports prepared for department chairs shall contain both qualitative and quantitative data with unedited comments.

b) Distribution

Course reports with aggregated results where total number of responses are 4 or more are shared with faculty and other stakeholders (with an exception for away rotations). On the evaluation forms for away rotations the students will be notified that all evaluations for away rotations, irrespective of the number of responses received, will be distributed (as in point iii below) and there is a possibility that student anonymity is not protected.

- i) Pre-clerkship course evaluation reports shall be sent to:
  - (1) The Department of Medical Education faculty
  - (2) The relevant course director(s)
  - (3) The assistant dean for medical education – basic sciences
  - (4) The assistant dean for medical education – clinical sciences
  - (5) The associate dean for medical education
  - (6) The associate dean for student affairs
  - (7) The data is shared with the Student Curriculum and Evaluation Committee (SCEC) by the assistant dean of medical education, pre-clerkship during the end of course review session.
- ii) Clerkship course evaluation reports shall be sent to:
  - (1) The relevant clerkship director
  - (2) The relevant department chairperson
  - (3) The assistant dean for medical education – basic sciences
  - (4) The assistant dean of medical education-clinical sciences
  - (5) The associate dean for medical education
  - (6) The associate dean for student affairs
  - (7) The data is shared with the Student Curriculum and Evaluation Committee by the assistant dean of medical education, clinical sciences during the end of the block review session.
- iii) All away rotation reports are sent to:
  - (1) The associate dean for medical education
  - (2) The assistant dean for medical education- clinical sciences
  - (3) The associate dean for student affairs
  - (3)(4) The assistant dean for student affairs.
- iv) Aggregated learning environment reports containing a summary of learning environment quantitative and qualitative data, including unedited comments will be produced at the end of each semester/block

    - (3) The associate dean for medical education

- 4) Timeline

- (1) Reports are distributed by the Office of Medical Education to the recipients as listed above after the grading is complete, typically 4 weeks after the last day of the unit/clerkship.

*6.2 Required Clinical Experiences: The faculty of a medical school define the types of patients and clinical conditions that medical students are required to encounter, the skills to be performed by medical students, the appropriate clinical settings for these experiences, and the expected levels of medical student responsibility.*

Required Clinical Experiences – List of Alternative Assignments				
For <u>each</u> required clinical clerkship or clinical discipline within a longitudinal integrated clerkship, the list below outlines each patient type/clinical condition or required procedure/skill that medical students are required to encounter.				
<b>**List the alternative assignments to remedy gaps when students are unable to access a required encounter or perform a required skill. Be specific – module name, essay topic, website/online content, simulated procedure. **</b>				
Clerkship	Patient Type/ Clinical Condition	Procedures/Skills	Clinical Setting(s)	Alternative Assignment
Obstetrics and Gynecology		C – Section	Inpatient	No alternative assignment, need to see on L&D or arrange schedule to accommodate
		Colposcopy	Outpatient	APGO #3 cervical cancer and STI screening
		Ectopic pregnancy	Either	Complete APGO#15 Ectopic Pregnancy submit screen shot of completed module Online MedED (OME): Obstetrics: Early Pregnancy, Ectopic pregnancy
		Hysterectomy (Vag-Abd, Robotic, or Laparoscopic_	Inpatient	OME: Abnormal Uterine Bleeding View Video, Complete Challenge Questions & submit screen shot of completed module
		Hysteroscopy	Either	APGO #41 Gynecologic procedures
		Insertion of Foley Catheter	Inpatient	OME: Gynecology: Anatomy and Pathology, Female Pelvic Anatomy
		Laparoscopy or Laparotomy (other than hysterectomy)	Inpatient	OME: Gynecology: Anatomy and Pathology, Adnexal Masses APGO #41 Gynecologic procedures
		Pelvic Floor Surgery & Suspension	Inpatient	OME: Gynecology Anatomy and Pathology, Pelvic organ prolapse APGO #41 Gynecologic procedures
		Repair of Vaginal Laceration/ Episiotomy	Inpatient	OME: Gynecology: Anatomy and Pathology, Female Pelvic Anatomy OME: obstetrics: labor and delivery, obstetrical operations
		Vaginal Delivery	Inpatient	No alternative assignment, need to see on L&D or arrange schedule to accommodate
	Annual Exam in any age group		Outpatient	Complete APGO# 7 Preventive Care and Health Management submit screen shot of completed module
	Postpartum Visit		Outpatient	Complete APGO# 13 Postpartum Care submit screen shot of completed module
	Routine OB		Outpatient	OME: obstetrics: early pregnancy, Antenatal and genetic screening

### Required Clinical Experiences – List of Alternative Assignments

For each required clinical clerkship or clinical discipline within a longitudinal integrated clerkship, the list below outlines each patient type/clinical condition or required procedure/skill that medical students are required to encounter.

**\*\*List the alternative assignments to remedy gaps when students are unable to access a required encounter or perform a required skill. Be specific – module name, essay topic, website/online content, simulated procedure. \*\***

Clerkship	Patient Type/ Clinical Condition	Procedures/Skills	Clinical Setting(s)	Alternative Assignment
	Abdominal Pain		Either	APGO #8 maternal-fetal physiology
	Assessment of labor		Either	OME: Obstetrics: Labor and delivery, Normal labor and delivery
	Cesarean section (sans blood)		Inpatient	Complete APGOs 17A & 17B: Medical & Surgical Complications of Pregnancy Watch video(s) submit screen shot of completed module
	Contraceptive Counseling		Either	Complete APGO# 9 Preconception & APGO# 33 Family Planning submit screen shot of completed module
	Diabetes Mellitus		Either	OME: Obstetrics: late pregnancy, diabetes during pregnancy
	Discomforts of pregnancy (low abd pain, round ligament pain, other)		Either	APGO #8 maternal-fetal physiology
	Evaluation/Rx bleeding in pregnancy including previa		Either	OME: Obstetrics: Late pregnancy, Third trimester bleeding
	Eval/Treatment cervical dysplasia or cancer		Either	Complete APGO# 3 Cervical Cancer & STI Screening submit screen shot of completed module
	Eval/Treatment of ovarian pathology		Either	OME: Gynecology: Anatomy & Pathology Complete lesson: Female Pelvic Anatomy Watch video, Complete Challenge Questions & submit screen shot of completed module
	High Risk OB HTN		Either	OME: Obstetrics: late pregnancy, Hypertension and Eclampsia
	Management of labor		Inpatient	Complete APGO# 32: Obstetric Procedures Submit screen shot of completed module
	Menopause/perimenopause		Outpatient	Complete APGO# 47 Menopause submit screen shot of completed module
	PCOS		Outpatient	OME: Gynecology: Reproductive Endocrinology Complete lesson: PCOS & Hyperandrogenism Watch video, Complete Challenge Questions & submit screen shot of completed module
	Pelvic Pain/LAP (dysmenorrhea, dyspareunia, endometriosis)		Outpatient	Complete APGO# 38 Endometriosis & APGO# 46 Dysmenorrhea submit screen shot of completed module
	Pelvic floor disorders (prolapse-cele)		Either	OME: Gynecology: Anatomy & Pathology Complete lesson: Pelvic Organ Prolapse

### Required Clinical Experiences – List of Alternative Assignments

For each required clinical clerkship or clinical discipline within a longitudinal integrated clerkship, the list below outlines each patient type/clinical condition or required procedure/skill that medical students are required to encounter.

**\*\*List the alternative assignments to remedy gaps when students are unable to access a required encounter or perform a required skill. Be specific – module name, essay topic, website/online content, simulated procedure. \*\***

Clerkship	Patient Type/ Clinical Condition	Procedures/Skills	Clinical Setting(s)	Alternative Assignment
				Watch video, Complete Challenge Questions & submit screen shot of completed module
	Postpartum Care in hospital - complicated		Inpatient	OME: Obstetrics: late pregnancy, postpartum hemorrhage
	Postpartum Care in hospital - uncomplicated		Inpatient	APGO #13 postpartum care
	Preeclampsia/Eclampsia/HELLP Syndrome		Either	Complete APGO# 18 submit screen shot of completed module OME: Obstetrics: late pregnancy, Hypertension and Eclampsia
	Preterm labor		Inpatient	OME: obstetrics: labor and delivery, Pre and post term complications of pregnancy
	Repair of episiotomy or laceration		Inpatient	OME: Gynecology: Anatomy and Pathology, Female Pelvic Anatomy OME: obstetrics: labor and delivery, obstetrical operations
	Sexually Transmitted Infection		Either	Complete APGO# 36 STI & UTI submit screen shot of completed module
	Vaginal discharge		Either	Complete APGO# 35 submit screen shot of completed module
Pediatrics	Normal Newborn Exam ( $\leq 7$ days)		Inpatient	OME Module 5 and 6
	Well Child Exam < 1 yr.		Outpatient	Aquifer Pediatric Case 1 and 2
	Well Child Exam - Toddler		Outpatient	Aquifer Pediatric Case 3
	Well Child Exam - School-age		Outpatient	Aquifer Pediatric Case 27
	Well Child Exam - Adolescent		Outpatient	Aquifer Pediatric Case 6 and 23
	Abdominal Pain		Either	Aquifer Pediatric Case 16
	Anemia		Either	Aquifer Pediatric Case 30
	Asthma		Either	Aquifer Pediatric Case 13
	Child abuse/neglect		Either	Aquifer Pediatric Case 25
	Developmental delay or regression		Either	Aquifer Pediatric Case 29
	Diabetes Mellitus		Either	Aquifer Pediatric Case 16
	Diarrhea		Either	Aquifer Pediatric Case 15
	Exanthems		Either	Aquifer Pediatric Case 32
	Failure to thrive		Either	Aquifer Pediatric Case 9 and 18
	Jaundice (Newborn)		Either	Aquifer Pediatric Case 9
	Obesity		Either	Aquifer Pediatric Case 4
	Otitis (Externa or Media)		Either	Aquifer Pediatric Case 14
	Respiratory Distress (infant or child)		Either	Aquifer Pediatric Case 12
	Sore Throat		Either	OME Module 1

### Required Clinical Experiences – List of Alternative Assignments

For each required clinical clerkship or clinical discipline within a longitudinal integrated clerkship, the list below outlines each patient type/clinical condition or required procedure/skill that medical students are required to encounter.

**\*\*List the alternative assignments to remedy gaps when students are unable to access a required encounter or perform a required skill. Be specific – module name, essay topic, website/online content, simulated procedure. \*\***

Clerkship	Patient Type/ Clinical Condition	Procedures/Skills	Clinical Setting(s)	Alternative Assignment
Internal Medicine	Chest pain		Inpatient	Choose one of the following cases #01, 02, or 22. Complete module. Outline a brief summary about Chest pain, ECGs, and CXR workup and management based on the case. <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Hypertension/ Hypertensive Crisis		Inpatient	Complete Case 06: 45-year-old male with hypertension on patient. Outline a brief summary about hypertension workup and management based on the case. <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Liver Cirrhosis or Ascites or Hepatic Encephalopathy		Inpatient	Complete Case 11: 45-year-old male with abnormal liver chemistries on patient. Outline a brief summary about hepatic workup and management based on the case. <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Congestive Heart Failure Exacerbation		Inpatient	Complete Case 29: 55-year-old female with fever and chills on patient. Outline a brief summary about Congestive Heart Failure workup and management based on the case. <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Pneumonia		Inpatient	Choose one of the following cases #15, 22, 24, 27, 28, or 29. Complete module. Outline a brief summary about Pneumonia workup and management based on the case. <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Pancreatitis, Acute		Inpatient	Complete Case 09: 55-year-old female with upper abdominal pain and vomiting on patient. Outline a brief summary about Acute Pancreatitis workup and management based on the case. <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>

### Required Clinical Experiences – List of Alternative Assignments

For each required clinical clerkship or clinical discipline within a longitudinal integrated clerkship, the list below outlines each patient type/clinical condition or required procedure/skill that medical students are required to encounter.

**\*\*List the alternative assignments to remedy gaps when students are unable to access a required encounter or perform a required skill. Be specific – module name, essay topic, website/online content, simulated procedure. \*\***

Clerkship	Patient Type/ Clinical Condition	Procedures/Skills	Clinical Setting(s)	Alternative Assignment
	Acute kidney injury		Inpatient	Choose one of the following cases #27 or 33. Complete module. Outline a brief summary about Acute Kidney Injury workup and management based on the case. <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	UTI/urosepsis		Inpatient	Choose one of the following cases #14, 21, or 35. Complete module. Outline a brief summary about UTI/Urosepsis workup and management based on the case. <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Gastrointestinal Bleed (upper or lower)		Inpatient	Complete Case 10: 48-year-old female with diarrhea and dizziness on patient. Outline a brief summary about Gastrointestinal bleeding workup and management based on the case. <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Diabetes Mellitus/ DM Complications (foot infection, cellulitis/ulcer, or DKA/HHS)		Inpatient	Complete Case 08: 55-year-old male with chronic disease management on patient. Outline a brief summary about Diabetes Mellitus workup and management based on the case. <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Stroke or TIA		Inpatient	Complete Case 03: Four patients followed by a brief summary about syncope workup and management based on the case <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Anemia		Inpatient	Choose one of the following cases #19, 21, 23, 27, or 36. Complete module. Outline a brief summary about Anemia workup and management based on the case <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Cancer diagnosis		Inpatient	Choose one of the following cases #11,13,17, 21,22,27,28,29, or 34. Complete module. Outline a brief summary about Cancer diagnosis workup and management based on the case

### Required Clinical Experiences – List of Alternative Assignments

For each required clinical clerkship or clinical discipline within a longitudinal integrated clerkship, the list below outlines each patient type/clinical condition or required procedure/skill that medical students are required to encounter.

**\*\*List the alternative assignments to remedy gaps when students are unable to access a required encounter or perform a required skill. Be specific – module name, essay topic, website/online content, simulated procedure. \*\***

Clerkship	Patient Type/ Clinical Condition	Procedures/Skills	Clinical Setting(s)	Alternative Assignment
				<a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Altered mental status		Inpatient	Choose one of the following cases #21,25,26, or 33. Complete module. Outline a brief summary about AMS workup and management based on the case <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
	Substance abuse (alcohol, drug)		Inpatient	Choose one of the following cases #10 or 11. Complete module. Outline a brief summary about Substance abuse workup and management based on the case <a href="https://aquifer.org/courses/aquifer-internal-medicine/">https://aquifer.org/courses/aquifer-internal-medicine/</a>
Psychiatry	Major depressive disorder (single or recurrent)		Either	Complete the learning module including feedback and quiz at the end. Upload certificate of completion and screenshot showing proof that the course was completed in its entirety to Elentra. <a href="https://www.admsep.org/csi-ecomodules.php?c=depression&amp;v=y">https://www.admsep.org/csi-ecomodules.php?c=depression&amp;v=y</a>
	Bipolar I or Bipolar II		Either	Complete the learning module including feedback and quiz at the end. Upload certificate of completion and screenshot showing proof that the course was completed in its entirety to Elentra. <a href="https://www.admsep.org/csi-ecomodules.php?c=bipolar&amp;v=y">https://www.admsep.org/csi-ecomodules.php?c=bipolar&amp;v=y</a>
	Schizophrenia or other Psychotic Disorder		Either	Complete the module in its entirety. Write a brief summary of each video and answer the following questions: 1) List the diagnostic criteria for schizophrenia. 2) State the illness stages of schizophrenia. 3) Describe the treatment plan for the patient discussed in the module, including medications, therapies, and psychosocial interventions. 4) Describe how to monitor medication side effects. <a href="https://www.admsep.org/csi-ecomodules.php?c=psychotic&amp;v=y">https://www.admsep.org/csi-ecomodules.php?c=psychotic&amp;v=y</a>
	Generalized Anxiety Disorder		Either	Complete the module in its entirety. Submit a summary of the case presented. Define

### Required Clinical Experiences – List of Alternative Assignments

For each required clinical clerkship or clinical discipline within a longitudinal integrated clerkship, the list below outlines each patient type/clinical condition or required procedure/skill that medical students are required to encounter.

**\*\*List the alternative assignments to remedy gaps when students are unable to access a required encounter or perform a required skill. Be specific – module name, essay topic, website/online content, simulated procedure. \*\***

Clerkship	Patient Type/ Clinical Condition	Procedures/Skills	Clinical Setting(s)	Alternative Assignment
				the anxiety disorders as presented in the module. Discuss the evidence-based treatment options of anxiety disorders as described in the module. <a href="https://www.admsep.org/csi-emodules.php?c=anxiety&amp;v=y">https://www.admsep.org/csi-emodules.php?c=anxiety&amp;v=y</a>
	Substance Abuse (Alcohol, Drug) or Alcohol or Opiate Withdrawal		Either	Complete the module in its entirety. Discuss recent trends in opioid use and deaths from overdose as discussed in the module. Describe CDC, AHA, and SAMHSA guidelines presented in the module, including risk reduction strategies and the steps of opioid overdose resuscitation. Provide an overview of Naloxone formulations and potential adverse effects/risks. Summarize the case presented in the module about patient Jim. <a href="https://www.admsep.org/csi-emodules.php?c=opiates&amp;v=y">https://www.admsep.org/csi-emodules.php?c=opiates&amp;v=y</a>
	Oppositional Defiant Disorder or Intermittent Explosive Disorder or Conduct Disorder subtypes		Either	Complete OME Peds Psych 3. Answer all the questions and provide proof of completion. <a href="https://learn.onlinemeded.com/courses/take/neuropsych-cases/multimedia/46720224-pediatrics-psychiatry-3">https://learn.onlinemeded.com/courses/take/neuropsych-cases/multimedia/46720224-pediatrics-psychiatry-3</a>
	Dementia or Delirium		Either	Complete the course including post-assessment and feedback, download certificate and upload to Elentra, along with a screenshot showing proof that the entirety of the course was completed. <a href="https://www.admsep.org/subpages/csi/modules/delirium/index.html#/">https://www.admsep.org/subpages/csi/modules/delirium/index.html#/</a>
	ADD/ Hyperactivity Disorder		Either	Complete the learning module. Using the case covered in the module answer the following questions: 1) Discuss the differential diagnosis for a child presenting with symptoms of inattention and/or hyperactivity. 2) Explain the components of a comprehensive ADHD evaluation, including questions in the clinical interview and relevant collateral. 3) Describe the clinical and epidemiologic features of ADHD

### Required Clinical Experiences – List of Alternative Assignments

### Required Clinical Experiences – List of Alternative Assignments

For each required clinical clerkship or clinical discipline within a longitudinal integrated clerkship, the list below outlines each patient type/clinical condition or required procedure/skill that medical students are required to encounter.

**\*\*List the alternative assignments to remedy gaps when students are unable to access a required encounter or perform a required skill. Be specific – module name, essay topic, website/online content, simulated procedure. \*\***

Clerkship	Patient Type/ Clinical Condition	Procedures/Skills	Clinical Setting(s)	Alternative Assignment
				<ul style="list-style-type: none"> <li>Irritable bowel syndrome</li> <li>Gallbladder disease in adults</li> </ul>
Surgery	<b>Alimentary Track:</b> <i>minimum of 2 from the following list:</i>			OME Surgery Module 1: Abdominal Pain OME Surgery Module 2: Abdominal Pain
	• Gastroesophageal reflux		Either	
	• Peptic/duodenal ulcer		Inpatient	
	• Esophageal cancer		Inpatient	
	• Gastric cancer		Inpatient	
	• Bariatric surgery		Either	
	• Small bowel obstruction		Inpatient	
	• Colon cancer		Inpatient	
	• GI bleeding: upper/lower		Inpatient	
	• Large bowel obstruction		Inpatient	
	• Appendicitis		Inpatient	
	• Inflammatory bowel disease		Either	
	• Diverticulitis		Inpatient	
	• Hemorrhoids		Either	
	<b>Abdominal Wall</b> – Hernia of any type, except hiatal hernia		Either	OME Surgery Module 3: Painful Bulge in the Groin OME Surgery Module 5: Scrotal Pain
	<b>Hepatobiliary:</b> <i>minimum of 2 from the following list:</i>			Wise MD: Cholecystitis Wise MD: Pancreatitis
	• Cholecystitis		Inpatient	
	• Pancreatitis		Inpatient	
	• Hepatitis		Inpatient	
	• Pancreatic pseudocyst		Inpatient	
	• Pancreatic cancer		Inpatient	
	• Liver mass/cancer		Inpatient	
	• Gallbladder		Either	
	<b>Breast:</b> <i>minimum of 2 from the following list:</i>			OME Surgery Module 9: Breast Lump OME Surgery Module 10: Breast Lump Diagnosed as DCIS
	• Fibrocystic changes		Either	
	• Breast cyst		Either	
	• Fibroadenoma		Either	
	• Breast abscess		Either	
	• Breast cancer		Either

Clerkship	Patient Type/ Clinical Condition	Procedures/Skills	Clinical Setting(s)	Alternative Assignment
	<b>Skin and Soft Tissue</b> – <i>minimum of 2 from the following list:</i>			Wise MD: Skin Cancer
	• Abscess		Either	
	• Melanoma		Either	
	• Skin Cancer		Either	
	<b>Subspecialty:</b> <i>minimum of 2 from the following list:</i>			Wise MD: Venous Thromboembolism OME Surgery Module 12: Shoulder Pain
	• Anesthesia		Inpatient	
	• ENT		Inpatient	
	• Vascular surgery not otherwise listed		Inpatient	
	• Plastic surgery		Inpatient	
	• Orthopedics		Inpatient	
	• Cardiothoracic		Inpatient	
	<b>Oncology</b> – <i>minimum of 2</i>			Wise MD: Colon Cancer
	• Any oncology surgery		Inpatient	Wise MD: Lung Cancer
		Care of Surgical Wound/Dressing change	Either	No alternative assignment, need to see during rotation or arrange schedule to accommodate
		Suture / staple removal	Either	
		Management and removal of drains and tubes	Either	
		Nasogastric tube or feeding tube insertion	Inpatient	
		Insertion of Foley	Inpatient	
		Venipuncture / IV placement	Inpatient	
		Suturing	Either	
		Rectal exam	Either	
Clinical Neuroscience	Stroke or TIA		Either	Review Stroke lesson on OME, complete Case 1 “Altered mental status and subarachnoid hemorrhage” followed by a

List of Alternative Assignments

				brief summary about Stroke workup and management based on the case.
	Epilepsy/Seizures		Either	Review Seizures and Epilepsy lesson on OME, complete Case 2 “Seizures and status epilepticus” followed by a brief summary about Stroke workup and management based on the case.
	Dementia or Delirium		Either	Complete Case 09 on Aquifer Neurology: 75-year-old with memory loss followed by a brief summary about Dementia workup and management based on the case.
	Neuromuscular disease		Either	Review Neuromuscular Weakness lesson on OME, complete Case 4 “Myasthenia Gravis and Hypothyroidism” and Case 6 “Guillain-Barre Syndrome” followed by a brief summary with workup and management based on the case.
	Infectious Diseases of the Nervous System (Viral encephalitis, bacterial meningitis, or fungal meningitis)		Either	Student will be required to watch video on Encephalitis on this link <a href="http://www.youtube.com/watch?v=rAisaSkVLJQ">www.youtube.com/watch?v=rAisaSkVLJQ</a> Afterwards, student must complete a 1 page summary on the video.
	Movement disorders (Hyperkinetic or Hypokinetic)		Either	Review Movement Disorders lesson on OME, complete Case 3 “Amyotrophic Lateral Sclerosis” followed by a brief summary about ALS workup and management based on the case.
Emergency Medicine	Fever		Outpatient	Reading and summary to include 5 common diagnoses for the presenting complaint with at least 5 clinical findings (history/exam/diagnostic studies) that would be likely for each of the diagnoses. ( <i>An Introduction to Clinical Emergency Medicine</i> , 2 <sup>nd</sup> ed, “Fever in Children – Section 2, Chapter 28”)
	Chest Pain		Outpatient	Reading and summary to include 5 common diagnoses for the presenting complaint with at least 5 clinical findings (history/exam/diagnostic studies) that would be likely for each of the diagnoses. ( <i>An Introduction to Clinical Emergency Medicine</i> , 2 <sup>nd</sup> ed, “Chest Pain – Section 2, Chapter 17”)
	Nausea & Vomiting		Outpatient	Reading and summary to include 5 common diagnoses for the presenting complaint with at least 5 clinical findings (history/exam/diagnostic studies) that would be likely for each of the diagnoses. ( <i>An Introduction to Clinical Emergency Medicine</i> , 2 <sup>nd</sup> ed, “Vomiting – Section 2, Chapter 44”)
